

○ Gazebo/dock/parking
— Common area/walking path
— Private property with pedestrian pass-through

- Notes
- Fishing/boating/swimming is prohibited in the front lake in order to avoid attracting trespassers.
 - Residents must accompany guests using the common area in order to verify their guest status. This requirement is in place to deter trespassers.
 - Please be courteous and avoid parking alongside the road when accessing common areas, when possible.

- Pedestrian pass-through of private property is for pedestrian use only. No motorized vehicles are permitted without permission of the property owner, unless a vehicle is required for a pedestrian's day-to-day conveyance.
- If the pedestrian pass-through is marked by a sidewalk, it is expected that pedestrians remain on the sidewalk and do not leave it to fish or wander the property.
